Announcing Autism Research

*A new journal with a developmental approach
to the biology and psychology of autism.*

Autism Research, the flagship Journal of the International Society for Autism Research, covers the developmental disorders known as Pervasive Developmental Disorders (or autism spectrum disorders—ASDs). The Journal has a strong focus on basic genetic, neurobiological and psychological mechanisms and how these influence developmental processes in ASDs.

The Journal encourages the submission of articles that take a developmental approach to the biology and psychology of autism, with a particular emphasis on identifying underlying mechanisms and integrating across different levels of analysis.

Submit your research today at <http://mc.manuscriptcentral.com/autismresearch>

Nashville, TN

LITERATURE REVIEW EDITOR

Edwin H. Cook, Jr.
Institute for Juvenile Research
University of Illinois at Chicago
Chicago, IL

INSAR

International Society
for Autism Research

The International Society for Autism Research (INSAR) is a scientific and professional organization devoted to advancing knowledge about autism spectrum disorders (ASDs), including autism, Asperger syndrome and Pervasive Developmental Disorders Not Otherwise Specified (PDD NOS).

Society members receive free online access to the journal. Join today! Visit: <http://www.autism-insar.org>

For more information about the journal, please visit: www.autismresearchjournal.com
